TELLING THE GOOD NEWS.

JOSIE SHEPHARD'S PEOPLE HEAR THAT THE BOY WILL COME BACK.

The Rochester Uncle and Aunt Have Already Begun to Prepare for His Reception-There Is Happiness All Through

to Many Sympathetic Hearts.

ROCKESTER, Sept. 19 .- Mr. John Shephard was seen at his place of employment, Cowles Brothers & Co.'s shoe factory, this morning. In answer to a call to "Send Shephard down," the foreman of his department allowed him a few moments.

There was not a happy look on his face, for he and his wife have waited so long that they had about given up the hope of obtaining their nephew. He heard the good news like one amazed, and for a moment seemed hardly able to realize it. Then the tears into his eyes and for a moment he came into his eyes and for a moment he could hardly control his joyful emotions. Said he: "It has taken a long time to get the little fellow, but I am satisfied now that it is all over. When I went down to New York and buried his father I found they had placed him in the Child's Nursery at Staten Island. I asked to be allowed to take Josic with me, but they said I would have to wait two or three weeks. They wanted to think about it.
"Well, I waited, and when I saked for him again I found they had taken him away. He was rather mischievous, I remember, but I know he will be a good boy if cared for properly."

properly."

Both Mr. and Mrs. Shephard can hardly wait to see their nephew, and have already begun preparations to receive him.

GRANDMA SHEPHARD HEARS OF IT.

She Was Almost Overcome by the Good News About Josie.

Grandmother Shephard had not heard the good news of the Juvenile Asylum Committee's decision to surrender little Josie to her son in Rochester when a reporter of THE EVENING WORLD visited her vesterday at the Queen Knitting Mills in East Forty-third street, where she works. .

The worry and anxiety about Josie during the past three months has told upon her perceptibly, and when the reporter entered the room where she was busily toiling away to support herself and sick son, who is unable to work, her face, careworn and thin, were a troubled look and the lines upon her brow ad deepened.

As she greated her visitor, however, she med to divine that good news was comng, for her expression changed to one of joyful expectancy, and when she was told that

ing, for her expression changed to one of joyful expectancy, and when she was told that THE EVENING WORLD had won its fight and Josie was to be returned from exile, she was almost overcome by her emotion.

"God bless THE EVENING WORLD for its good work," she said with tears in her eyes as she grasped the hand of her visitor. "How can I ever repay it for what it has done for me and mine. I am sure my son feels the same. We are only poor people, and without its aid we could have 'done nothing. Why, the news makes me feel as if there were something to live for again.

"I had begun to despair of ever seeing Josie again after they refused to bring him back the second time. I thought he was lost to us forever. Last night, when I read THE EVENING WORLD that there was to be a meeting of the committee and there was hope that they would change their minds about bringing back my boy. I began to have some hope again, and when you came in just now I was sure that you had some good news for me. And, sure enough, I was right.

"It hardly seems possible that I am going to see him again. Even if it is some time before I am able to go up to Rochester—for it costs a good deal and I cannot leave my son here alone sick—it is comforting to know that he will be under the care of my other son and will be among his friends.

"Perhaps my son's wife will bring him from Rochester to see me and make a little visit. I hope she will, even if it is only for a few days, for I cannot tell you how I long to get a look at him once more. Until I lay my eyes on him I will hardly be able to believe it is all true.

"I will write to John, my eldest son, tonight and tell him the good news, if he has not heard it already. I could not wish for anything better than that Josie should be given to him, for I know he will be able to de much more for him than I could or my friends in New York. He will write to The Evening World, to thank it for what it has taken in the case." and the old lady nearly broke down, although her face was beaming with joy and grati

Reformatory, Sherburn, indulged in another outbreak at that institution Labor Day.

It is impossible at this hour to state what brought about the insubordination among the mmates, as every effort has been made by the officials to have the affair withheld from the public, but the information has been volunteered to the effect that pandemonium reigned for awhile at the institution that day, that the leaders of the revolt smashed windows and electric lights, and the air was filled with curses and shrieks during the time.

The sequel to the affair is that about twenty women who acted in the capacity of ringleaders are now locked up in solitary, where they have been since the day of the outbreak.

which he was the alleged manager, the purpose of which was to obtain all sorts of the atrical positions for people who wanted them for a fair consideration.

There was no limit to the scope of the agency's power. Anybody theatrically inclined, from a star to an advance agent, was to be readily accommodated with employment. H. C. Goode and James P. Gruire, who live at 101 Bergen street, Brooklyn, thought they saw an opening to the stage in Gillespie's advertisement, and answered it. Each handed over \$200, for which they were to receive leading positions. The \$400 seemed to satisfy Gillespie's ambition, for the advertisement ceased to appear, and so did the advertiser.

After a while the young men from Brooklyn told Inspector Byrnes all about it. Detective Kush was placed on the case. He traced Gillespie to Jersey City and called on Chief Murchy for help. THEY ARE REPRESENTED IN A STATE

Delegates to the State Convention of the United Labor party assembled at Cooper Union this forenoon preparatory to a session at noon for the purpose of nominating an electoral ticket and discussing the advisability of putting a State ticket in the field.

The convention was called for noon. In the mean time the State Committee assembled in its rooms for a little preliminary work. Chairman John H. Blakeney, of Binghamton, a venerable politician, with a long, grizzly beard and a shiny beaver hat, was one of the principal figures around the

Secretary Gaybert Barnes was on hand to look after details and keep the delegates and committeemen from getting into the wrong

Dr. McGlynn was one of the first to appear, and, as usual, was the central figure around which the lesser lights congregated. He was greeted very cordially by every new arrival from the hayseed districts and from the city wards. The doctor is a member of the State Committee, and cavorted about more actively than he did when the Archibishop had a rod in pickle for him. He whispered with many delegates as they entered the rooms and was generally looked up to as a patriarch in the movement.

Delegates kept coming all the forencon. Among them were James Ryan, of Oswego, a prominent labor leader; J. H. Steinmetz, of Byracuse, a member of the State Committee: John K. Sullivan, a handsome, dark-eyed New Yorker from the silk stocking Republican stroughold, the Eleventh District; W. J. Sutherland, of Yonkers, a State Committeeman; Victor A. Wilder, a shining light from Brooklyn; John J. Walker, from the Fourteenth District, on the east side; Capt. Lloyd, a grizzly veteran with a long beard, from New Rochelle: R. A. Wood, an Albany journalist, with specs and a smiling physiognomy; Geo. A. Black, of the Twenty-third District; and last, but by no means least, Lewis P. Delan, an American of French extraction, who figures among the organized labor people and is known as a jolly good fellow by all the "boys."

Mr. Blakeney said the State Committee would not do much at the preliminary session, and he could not tell what the State Convention would do about nominating a State ticket.

THE SCHILLING MURDER.

A Very Delicate Legal Point That May Save the Prisoner's Life.

The trial of Frederick Schilling for the murder of his wife, Mary Schilling, was set down for to-day before Judge Gildersleeve in Part III. of the Court of General Sessions. Ex-Assistant District-Attorney Ambrose H. Purdy had been assigned to the defense of

Schilling, who is without funds.

Mr. Purdy associated Elliott Smith with him and asked for an adjournment until Monday to allow time for preparation, as there were one or two nice points of law entering into the case.

Schilling and wife had been married five years. He had a meat market at 1214 First avenue, and they lived in rooms at the rear of the store.

from too much beer. He wanted steak for supper, and went into the store to cut it, his wife following.

A scream was heard a few minutes later, and to the first person arriving Mrs. Schilling said: "I have stabbed myself."

Her husband ran for a doctor, and to him she said she had stabbed herself.

Schilling was arrested and told Capt. Gunner that his wife was reaching for a piece of beef when she ran against the knife point as it lay on a meat block.

Afterwards he told another story, saying that he had cut off a steak when he threw the knife down on a block. It must have bounded off, striking his wife.

The meat-block was twenty-three inches high. The cut in Mrs. Schilling's abdomen was a horizontal one, and no other witness

The feature of the stock market to-day at the opening was a break of 101/2 points in Columbus, Hocking Valley and Toledo

This was presumably owing to the decision gainst the company in its suit against Judge Burke for the recovery of \$8,000,000 alleged to have been misappropriated when the latter

to have been misappropriated when the latter was President.

The break in the stock had no perceptible effect on the general market.

The great favorites were St. Paul and Lake Shore. The former was taken by thousands for London account, and a report was current that an English syndicate had been formed to obtain control of the company and oust the present managers. Lake Shore was taken by Vanderbilt houses, and for the first time in a long while sold at par.

Hocking Valley 5s broke 4½ per cent., to 79%, and 6s 6 per cent., to 81.

Almost a Paule on the Exchange. The Stock Exchange was the scene of the greattrade was on a larger scale than for some time.

The bulls succeeded in advancing the whole list and the bears became panio stricken. The chief nutwiest centred in St. Paul, which sold up to 69½, from 64½ esriler in the day. Just at the close there was a reaction of from ½ to 1 per cent. from the former figures.

She leaned heavily on her father's arms, her breast heaving violently, tears welling to her eyes and coursing down her cheeks, while her counsel, Jere Wernberg, asked Justice Walsh for a further adjournment of the examination until Sept. 25, at 10 a.m.. The request was granted.

Bail was continued at \$1,500, which was furnished by Contractor John Devlin.

Jeweller Taylor was present, an unwilling prosecutor of the handsome culprit, and looking much as if he wished that he had never made any complaint of the theft of his gems as he witnessed the silent agony of Miss Lent before the bar.

James Brumley was not present. He is the young man for whom Miss Lent claims to have taken the diamond ring to replace one he had loaned her, and which she claims to have lost.

The wagon had no name or number on it. Inside of it, however, was 1,000 pounds of the best No. 1 composition metal, the kind used for the construction of trunnions. This had been abstracted from the part of the yard where they are breaking up the old gun carriages.

The name of the excited driver is Abrams, and he was promptly locked up in the guard-house pending an investigation of his iron collecting. It was impossible for him to have secured the metal without the co-operation of some one inside the yard and in view of the recent sensation over Navy-Yard pilferings this new phase of larceny is thought to be of considerable importance. Abrams was a former employee in the Navy-Yard. The matter will be thoroughly investigated.

ALDERMAN FARLEY DISCHARGED.

Justice Smith Finds No Evidence that He Assaulted Reggenberg.

The examination of ex-Alderman Patricl Farley, who was accused of assault by Driver Charles Reggenberg, of 164 Leonard street, was conducted before Justice Smith at the Tombs Police Court to-day. Mr. Farley was present with his counsel, while the interests present with his counsel, while the interests of the complainant were looked after by ex-Police Justice Charles A. Flammer.

The first witness called was Reggenberg, who testified to being assaulted in Farley's salcon on the night of July 28 last. He could not positively swear who his assailant was, but he believed it was Farley.

Michael J. Gilroy, of 55 James street, was the next witness, He testified that he heard Farley say to some one on the night of the assault: "Take that fellow out of here," but did not see the assault committed.

Alderman Farley next took the stand and swore that he never saw Reggenberg before. He denied emphatically that he assaulted him or any one else on that night.

Justice Smith discharged Farley on the ground that there was no evidence of assault.

BOURKE COCKRAN STEPS OUT.

Under No Circomstances Will He Go Back to Congress, He Says. It has been currently reported that Cop gressman W. Bourke Cockran would refuse to accept a renomination, but many of his

The bright sunlight and perfect antumn day have brought gladness to the thousands who are here to see the sport.

To name even the lions of the athletic flower in attendance would be a weary isak. The New York, the Manhattan, the Schuyikili Navy, the Pastime, the Staten Island, the Queen College, Cork; the Olympic, of San Francisco; the Halfax, the Toronto, the Chleago, the St. Louis and other athletic organizations have representatives was will tell year neade of the new Amstern Union's first creat championship meeting at Detroit and the fight the old association made.

The members of the Detroit and Boston baseball clubs were present. It had been agreed last spring that ball should not be played in Detroit on the afternoon of championship day, so the ball-tosers looked on. Ter-thousan-ddollar Clarkson, and Kelly, the prize beauty, rested in the grand stand from their morning labors and sui-mitted to a division of the Bonistins with lithe-limbed amateurs.

Upon coming into the grounds the specuators were handed the Manhattan Athletic Club's pamphiet which declares the union resolution forbidding the competition of American amateurs at open meetings not held under union rales is an attempt at buildozing.

This Union resolution was passed, he principal minusers say, to prevent a possibility of the country having more than one champion of any branch of sent at one time.

"What is the sonse," say Carter, Ford and a dozen more, "of our winning a championship if some other association is going to hold a meeting a week or a month atter and confer the same championship of America on some other athlete."

LONDON, Sept. 19. - The police have made another arrest in connection with the mysterious murders of frail women in Whitechapel, over which this city has been palpi-

tectives of Scotland Yard found themselves at fault.

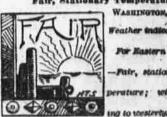

For this latest arrest there seems more ground than for any of the others. The prisoner, one Ludwig, who has been in the vicinity for only three months, was arrested after actually threatening a Whitechapel prostitute and drawing a long knife upon her. He had also with him a razor and a pair of scissors.

If he proves to be the right man, London will draw a long breath and turn its gossipy tongues from the question of who to the equally interesting problem of why.

Mr. W. H. Murtha summoned Coroner Messemer in his capacity of physician to attend to Mr. Mills. Cracked ice was applied to his temples, and after awhile he had rallied enough to admit of his removal to New York. Dr. Messemer remained with him till midnight administering to his needs.

To-day Mr. Mills is considerably better, but still remains too indisposed to travel or make any speeches. He is spending to-day quietly, and there is every ground to hope that the distinguished Texan will shortly be quite himself again, and can devote his valuable services to the campaign.

He asserted that a full representation would be on hand at noon from all the assembly districts in the State.

The basis of representation is one delegate for every 200 votes, or fraction thereof, cast at the last election. It was said 370 delegates would be present.

Several District Messenger boys distributed among the delegates a handbill beaded: "Push on Ballot Reform," and containing an extract from Warner Miller's speech in Brooklyn on the 17th inst., quoting his ramarks on the Saxton bill.

To head off rumored efforts to spring the convention to the side of one or the other of the candidates now in the field, Secretary Gatens, of the General Committee, prepared a resolution declaring members of the party at liberty to vote for any party's candidate they should choose, in the event of the failure of United Labor to put forth a candidate of its own.

It was finally determined that the convent

William Fogarty Committed to the Ton for the Umbrella Murder. Detectives Leary and Mulcahy, of the fadison street police, had their prisoner,

They also had with them Mamie Winne and Mrs. Mary Sweeney, who saw the affray, and are both positive that they can identify the prisoner as the man who assaulted and stabbed the murdered man.

They have known both the brothers for several years and say they have been on bad terms for a long time. Once James, the murdered man, was heard to declare that he would have his brother's blood or the latter would have his. Mary Sweeney had a good look at William on the night of the murder and can positively identify him.

When Fogarty was arrested yesterday he admitted to Detective Leary that he was guilty, and said that he wished he had surrendered himself to the police before. Today he says that he does not know anything about his brother's death, and declares that he made no confession to the detective such as is attributed to him.

When brought into court this morning he manifested no emotion, and appeared utterly

Arthur Lester, aged sixteen years, of 410 East Company at 4 P. M. yesterday. At 5 o'clock he was taken out by Michael Hyman, one of the firm, to show samples to customers. Lester carried six suits valued at \$50, and was left at the door of Le Boutilier's store.

In five minutes Mr. Hyman came out and discovered that Lester was gone, samples and all. The property was subsequently found at a pawning. At the Jefferson Market Court this moraing Lester was held for trial.

There were four of these murders. The last victim was "Black Ann." of whose death and the horrible mutilation of her body The Evenino World informed its readers Sept. 8.

The bodies of the three previous victims had been likewise mutilated, and from the similarity of the bloody work in all the cases it was believed that one man, who evidently knew something of anatomy and surgery, did all four of the murders.

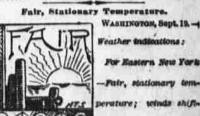

There were various wild stories, including a tale of a repulsive and mysterious man who always wore a leather apron and carried a sharp knife. Several arrests were made which proved purposeless, and the best detectives of Scotland Yard found themselves at fault.
